

Roundtable Discussion Topic: Cloud Computing

Discussion Leader:

Jason Tennyson, Product Manager - Consumer Cloud Applications and Value Added Services
Cincinnati Bell

Abstract:

The Service Provider is playing a key role in consumer and commercial cloud environments. Executing the proper strategy is critical to the success of the Service Provider. Understanding the Cloud will help establish clear cloud objectives and direction as well as a comprehensive competitive overview.

Discussion Leader Biography:

Jason has over 10 years of Product Management experience, working for Cincinnati Bell and TDS Telecom. In that time Jason has helped both companies establish a value added services strategy that has been highly successful. This experience has been most valuable as his role has expanded to cover consumer cloud application management for Cincinnati Bell.
